Here is a rundown of what will be happening on the night, for your ticket price of \$80.00 this is what you receive.

For those of you who have not been to a function at Club Macquarie before the food is way above the quality of normal club food and can definitely be compared to the top restaurants around town. These are the courses that have been chosen:

3 Course dinner served 50/50 consisting of the following.

- Entree: Butternut Pumpkin soup with garlic croutons or
Potato and leek soup with herb bread
- Main: Scotch fillet steak on potato mash with mushroom ragout or
Chicken Breast topped with prawns with white wine sauce.
- Dessert: Pavlova with fresh fruit or
Baked Cheesecake

If you have any special meal requirements please advise beforehand e.g.: Vegetarian.

Also included in the package is a 5 hour drinks package (6.00-11.00pm) which includes House wine, Beer and soft drink.

**Entertainment is provided on the night as well in the form of a solo singer and a DJ.
There are also 3 lucky door prizes to the total value of \$1,500 being drawn on the night.**

As you can see you are getting great value for your \$ as well as supporting a great cause.

A raffle will be drawn every hour on the night and tickets will be available only on the night, with the exception of the mini bike and Lumix camera - those tickets are available now from Fraser Motorcycles but will still be available and drawn on the night.

Our guest auctioneer is an ex Newcastle Knights player and our MC is Scotts brother Tony Priestley. Scott would definitely want everybody to have a great time and celebrate his progress so bring your dancing shoes and be prepared to have FUN!!!!!!
We will be doing a video of the night to show Scott as well.

The following is a list of items and services that have been donated for raffles, auctions and lucky door prizes, there is still many more items to be confirmed and added and prizes are still being donated and collected by the day and this list will get updated again closer to the night with all of the additions.
